I am a versatile professional with over 20 years of experience spanning business ownership, education, and academic administration. I have a natural ability to connect with people and communicate clearly, which has helped me succeed in roles involving project coordination, event planning, branded marketing, and executive support. I run my own marketing consulting business, teach high school EFL, supported university-level research teams, organized major conferences, and taught in elementary school, as well as on the collegiate level. I am highly adaptable, proactive, and detail-oriented; always ready to bring creativity, initiative, and strong organizational skills to any opportunity.
